

Wingerworth Parish Council – Memorials

1. Introduction

The Council has a formal policy on memorials in the Parish which will be a reference for the requests received periodically for some form of commemoration to mark a person's life and in particular a significant contribution to the well-being of Wingerworth.

2. Process

Requests for memorials will be taken from family members or from organisations with whom the person was connected. If a request is granted by the Council the form of memorial would be a dedicated tree with a small plaque placed alongside.

3. Applications

The allocation of the trees over time would be at the sole discretion of the Council and any agreement would be conditional on the plaque as the only memorial item at the site as the Council does not want any other items fixed to or placed by the trees.

There is no formal application form, but a letter containing details and reasons for the request should be addressed to the Clerk so that it can be placed before the Council.
